
JZM Series Portable Electric Concrete Mixer

THE INTRODUCTION OF JZM SERIES PORTABLE ELECTRIC CONCRETE MIXER

MITNIK JZM series portable electric concrete mixer is a self-falling concrete mixing machine, which has excellent performance in mixing dry-hard, semi-hard, plastic and various proportions of the concrete. Users can dig a hole to make the hopper orifice level with the ground. By this way feeding will be more convenient.

The Best Features of the JZM Series Portable Electric Concrete Mixer:

1. High efficiency and large capacity.
2. Stable performance and lower noise.
3. Easy to operate and maintenance.
4. With four standing legs, more suitable for heavy work load.
